Emotional Intelligence Foundations - Workbook

Foundation course | Trainer: Maya Thompson

About this workbook

Build self-awareness and learn to respond rather than react at work.

Use it alongside the course player. Print it, or type your answers into a document. Writing things down makes them easier to remember and to act on.

Reflection questions

1. Which situation at work most often pulls you off balance, and what does that reaction look like from the outside?

2. When did you last choose your response instead of reacting, and what made that possible?

3. Who in your team is hardest to read, and what question could you ask to check your read?

Write your answers below each question. There are no right answers.

Exercise: Seven-day trigger log

1. Each time you feel pulled off balance, write what happened, who was involved and the time of day.

2. Name the feeling in a single word.

3. Use the ninety second pause and note what you did next.

4. At the end of the week, circle the pattern that appeared most often.

Seven-day action plan

Choose one outcome from this course to practise.

Day 1: decide the situation where you will use it.

Day 2 to 6: use it once a day and write one line about what happened.

Day 7: review. What worked, what will you change, who will you tell?

Outcomes to choose from:

- Recognise your own emotional patterns

- Use a simple pause routine under pressure

- Read the room in meetings more accurately

Confidence check

Rate your confidence with each outcome from 1 to 10 now, and again in two weeks.
