# Sustainable Performance - Workbook

Foundation course | Trainer: Grace Whitfield

## About this workbook

Practical habits for energy, focus and recovery during demanding seasons of work.

Use it alongside the course player. Print it, or type your answers into a document. Writing things down makes them easier to remember and to act on.

## Reflection questions

1. At what time of day do you do your best thinking, and how much of that time is protected?

2. Which boundary have you set and broken, and what would a more realistic version look like?

3. What are your first two signs of overload, and who could you tell?

Write your answers below each question. There are no right answers.

## Exercise: One-week energy log

1. Three times a day, rate your energy from one to five.

2. Note what you were doing and what you had eaten or slept.

3. At the end of the week, mark your two best hours of the day.

4. Move one important task into those hours next week.

## Seven-day action plan

Choose one outcome from this course to practise.

Day 1: decide the situation where you will use it.

Day 2 to 6: use it once a day and write one line about what happened.

Day 7: review. What worked, what will you change, who will you tell?

Outcomes to choose from:

- Plan your week around energy, not just time

- Set boundaries you can keep

- Notice early signs of overload

## Confidence check

Rate your confidence with each outcome from 1 to 10 now, and again in two weeks.
