Sustainable Performance - Workbook

Foundation course | Trainer: Grace Whitfield

About this workbook

Practical habits for energy, focus and recovery during demanding seasons of work.

Use this workbook alongside the course player. Print it or fill it in on screen.

What you will be able to do

- Plan your week around energy, not just time

- Set boundaries you can keep

- Notice early signs of overload

Energy is the real resource

Time management only works if you have the energy to use the time. Track what gives and drains your energy for one week.

Reflection: Rate your confidence from 1 to 10 now, and again in two weeks.

Boundaries you can keep

Small, specific boundaries beat big promises. Choose one and tell your manager about it.

Reflection: Write three sentences about a recent moment this applied to you.

Recognising overload early

Learn the physical, emotional and behavioural signs that you or a colleague are running on empty.

Reflection: What will you try differently this week? Who will notice?
